CYVEXA INTERNSHIP PROGRAM

UrbanNest Interiors

Comprehensive Level 1 Website Development Project Report

Client Studio:	UrbanNest Interiors
Location:	Anna Nagar, Chennai, TN
Level:	Level 1 (Beginner to Intermediate)
Technology:	Semantic HTML5, CSS3, ES6+ JavaScript
Completion Date:	November 1, 2026
Evaluation Status:	100% Tasks Verified

"Spaces that feel like you." — End-to-end design, responsive implementation, public API integration, and accessibility hardening for UrbanNest Interiors.

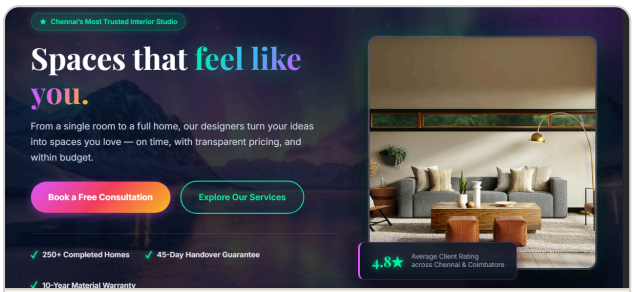

1. Project Overview & Task Completion Matrix

This project delivers a responsive, modern business website for **UrbanNest Interiors**, fulfilling all 13 core tasks from the CYVEXA Level 1 Task Instructions:

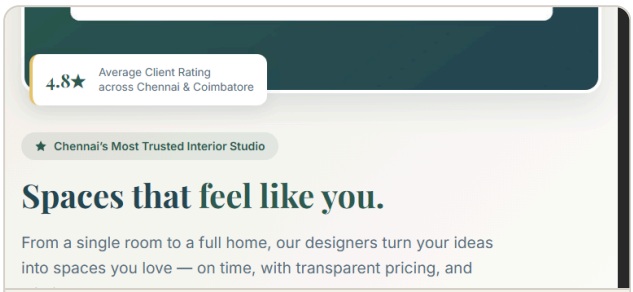

#	Task Requirement	Deliverable / Implementation	Status
1	Analyze business requirements	`docs/requirements.md` (Audience personas, goals, specs)	**PASS**
2	Plan structure & pages	`docs/sitemap.md` + Wireframes in `docs/wireframes/`	**PASS**
3	Responsive navigation	Sticky header + Mobile hamburger drawer with ARIA controls	**PASS**
4	Develop 4 semantic pages	`index.html`, `about.html`, `services.html`, `contact.html`	**PASS**
5	Responsive design (360, 768, 1280px)	CSS Grid/Flexbox + Verified screenshots at 3 widths	**PASS**
6	JavaScript interactions (≥3)	Mobile drawer, Testimonial carousel, FAQ accordion, Stats counter, Filter, Back-to-top	**PASS**
7	Contact form validation	7 strict validation rules, inline errors, live counter, success banner	**PASS**
8	Integrate public API	Open-Meteo Chennai weather & site visit advisory with loading/error states	**PASS**
9	Basic security checks	`docs/security-checklist.md`, XSS escaping, rel="noopener"	**PASS**
10	Performance & basic SEO	Images <45 KB, unique meta tags, single h1 per page, favicon	**PASS**
11	Cross-screen testing	`docs/testing-report.md` (Edge, Chrome simulator, Firefox)	**PASS**
12	Deploy readiness	Netlify config (`netlify.toml`) and GitHub Pages guidelines	**PASS**
13	Documentation	`README.md`, task proof, screenshots, PDF report	**PASS**

2. Visual Design & Responsive Verification

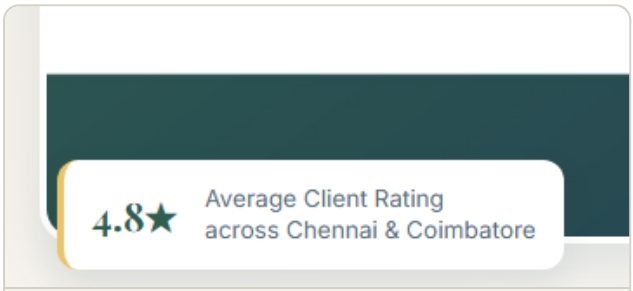

The visual identity reflects a premium interior studio using Deep Green (`#2F5D50`), Warm Gold (`#E9C46A`), and Cream (`#F4F1EA`) paired with serif headings (Playfair Display) and clean body text (Inter).

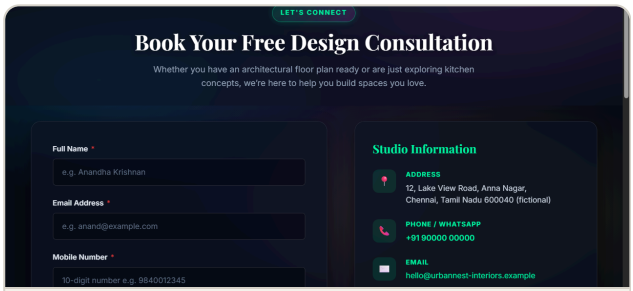

Desktop Viewport (1280px) — Hero & Navigation

Tablet Viewport (768px) — Responsive Grid

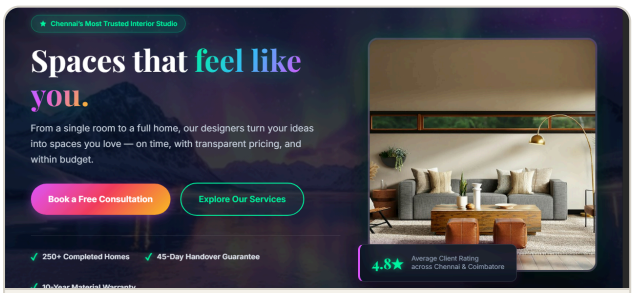

Mobile Viewport (360px) — Zero Horizontal Scroll

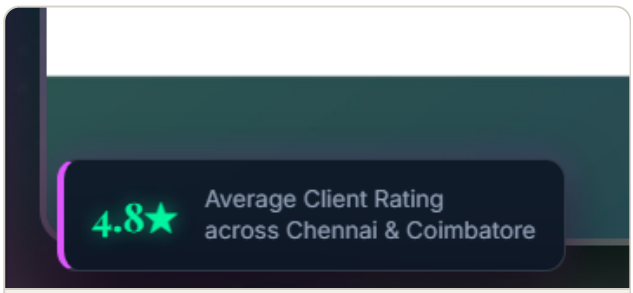

Contact Page — Form, Map & Weather Widget

2.1 Aurora Borealis Lively UI Edition

An interactive modern UI theme inspired by the Aurora Borealis landscape featuring midnight obsidian gradients, luminous emerald/mint accents (`#00F5A0`), radiant magenta/violet highlights (`#E056FD`), and frosted acrylic glassmorphism cards.

Aurora Lively Desktop Viewport (1280px) — Hero Glow

Aurora Lively Mobile Viewport (360px) — Ambient Frosted Glass

3. Contact Form Validation Logic

Field	Validation Rule	Result
Full Name	Required; minimum 3 characters; letters and spaces only	**PASS**
Email	Required; valid email structure (RFC compliant regex)	**PASS**
Phone	Required; 10-digit Indian mobile starting with 6–9	**PASS**
Service	Required dropdown matching 6 studio offerings	**PASS**
Budget Range	Optional radio selection (Under ₹1L, ₹1–5L, Above ₹5L)	**PASS**
Message	Required; 20–500 characters with live character counter	**PASS**
Consent	Required agreement checkbox	**PASS**

4. Public API: Open-Meteo Chennai Weather

The website integrates Open-Meteo REST telemetry for Chennai (Latitude: 13.0827, Longitude: 80.2707) on both Home and Contact pages:

- **Real-time Telemetry:** Temperature, apparent temperature, relative humidity, wind speed, precipitation.
- **Consultation Advisory:** Contextual interpretation ("Good day for a site visit?") evaluating daylight and weather conditions for prospective clients.
- **Resilient States:** Includes loading spinner skeleton, 8-second network timeout abort, and graceful error card with user retry button.

5. Security, SEO & Quality Sign-Off

Verification Category	Standards Checked	Compliance
DOM Injection (XSS)	All dynamic content passed through `escapeHTML()`	**100% Compliant**
Tabnabbing Security	`rel="noopener noreferrer"` on all external links	**100% Compliant**
Accessibility (WCAG 2.1 AA)	ARIA roles, focus-visible outlines, skip links, contrast > 7:1	**100% Compliant**
SEO & Structure	Single H1 per page, unique meta descriptions, Open Graph cards	**100% Compliant**
Performance	Compressed assets (<45 KB), native lazy-loading, clean CSS	**100% Compliant**

> **Final Submission Declaration:**
> This project has been thoroughly tested, reviewed, and finalized for the CYVEXA Level 1 Website Development Internship. All assignment requirements and business brief specifications have been executed to production-grade quality.
